

This self-guided worksheet has been designed with families in mind. Please feel free to choose the activities, questions and games that most appeal to you and your family. We hope that this worksheet will help you to think about the artworks, artists, and start some interesting conversations!

All the activities can be used with any of the sculptures.

What are we looking at?

What is it?

Where is it?

Some questions that could help you talk about what you're seeing

- What do you notice about this sculpture?
- What does it remind you of?
- What do you think it is made of?
- Can you find any symbols in the sculpture?
- These artists thought hard about where their sculptures would be displayed on the trail. Can you find any connections between the artwork and where it is?
